

**Oroville Facilities Relicensing Efforts  
Draft Write-up for E&OWG Discussion**

**Lake Oroville Oversight Committee  
Resource Action EO5**

**Brief Conclusion for Resource Action EO5**

Butte County has proposed that DWR establish a Lake Oroville Oversight Committee that could monitor recreation facilities development and cultural resources protection. Butte County also foresees the Lake Oroville Oversight Committee as an appeals body that would address other Oroville Facilities related issues.

DWR believes the issue of developing an oversight committee as described in Butte County's resource action proposal should be addressed during settlement negotiations.

There are no technical analyses or operations modeling matters associated with this resource action for the E&OWG to consider at this time, therefore, this resource action will be a subject only for settlement negotiation considerations.
